

Bio Access V3

Designed and produced using the international leading technology named "Fingerprint self Learning", the terminal could automatically suitable for different environments, even injured fingerprint, and could achieve once enroll, all lifetime use. It adopts fingerprint total reflection collector that is most mature optical collector in the world whose surface is scratch-resistant and anti-abrasive.

Fastest Fingerprint Scanning & Matching – BioAccess v3 come with the fastest fingerprint scanning & matching. 50% more people can give attendance within same time leading to time saving and less queuing. It also offer lowest finger rejection compared to competing products.

Rugged & Scratchproof Fingerprint scanner – BioAccess v2 come with rugged and scratchproof fingerprint scanner with long life. Some competing products in the market require you to change the scanner surface every few months.

Supports 32 groups time zone, 32 groups time group, 32 group's time section. It has got valid authority control where it caters different safety control requirements.

Provide Interface of access control Door lock, door sensor, press button, door bell etc. also provide Interface of Wigand Support WG26/WG34 input or output.

Aluminum alloy shell makes device more rugged and durable
