Our Vision

To integrate EHS aspects in all human endeavors
to bring prosperity with well-being of the people.

600+ critical 3D Animated **accident/near miss scenario**
developed to avoid the re-occurrence of incidents or near misses

250+ **Safety operating procedures (SOP)**
demonstrated in 3D Animation to explain equipment
controls and steps for various industries

Successfully completed **50+** batches of
NEBOSH IGC, IOG & IOSH courses,
trained **700+** **HSE professionals**
in India and Overseas

Globally **25000+** **scaffolders** trained
includes Advanced/Basic/Trainee, Inspector,
Supervisors, Engineers and Managers

Successfully completed **6000+** **training**
programs and trained **100,000+** **participants**
since 2007

Undertaken contract for 15 companies on turnkey
basis by supply of **2000+** **tons** of materials on rent of
multiple system (Cup-Lock, Tubes & Fittings, Ring lock &
H-Frame systems), by mobilizing competent team of
800+ **scaffolders, inspectors and management team**

2000+ hours of 3D Animated **Safety induction** movie
(Employee orientation program) developed till now for
various industries.

Deployed more than **6000+** Safety Professionals to
construction industries projects & operation industries since past 12 years

Supported **500+** **MNC & Government companies** by deputing trade
specific experienced EHS Manpower at all the levels of management,
from stewards to safety head.

Software solution(s) supported by Mobile/Apps are being used
enterprise wide by 30+ Global Corporates based in USA, Taiwan,
Russia, Colombia, Gulf Countries and India having **12000+** users,
which are deployed at their on-premise data center/private
cloud servers.

Successfully executed **35 million** cubic meter
scaffolding work for construction, maintenance
and shutdown phases **without an incident!**

Successfully completed one year of our
EHS publication B-Proactive ASK-EHS
Magazine. With Positive, Practical and
Perennial EHS Resources, our magazine
has received overwhelming response from
500+ **subscribers worldwide.**

OVERVIEW

Transforming Environment, Health & Safety outcomes
– Saving Lives

ASK-EHS is a unique organization, born out of the vision of “Supporting the Environment, Health & Safety efforts” of industrial organizations and institutions. In its quest for excellence, ASK-EHS strives to serve its patrons through innovative and technology-led solutions. Our core vision continues to guide us on how we do business and improve the safety performances of the industries we serve.

As India's only integrated EHS solutions provider, ASK-EHS has had the privilege of associating with over 250 corporations and institutions all over the world. Our experience in serving multiple industries including EPC, Heavy Engineering & Infrastructure, Chemicals, Oil & Gas, Power & Energy, Metals & Alloys, Pharmaceuticals, Automotive and many more, has enriched our journey of 14 years towards domain (EHS) excellence.

At ASK-EHS, “EHS” has been at the epicenter of our inception and growth. We have emerged as India's most preferred EHS service provider due to our in-depth understanding of the EHS Domain, Research and Technology led service solutions with unmatched expertise.

Our strength originates from the uniqueness of the concept of our organization. We're the only organization in INDIA, capable of undertaking complete ownership (turn-key basis) of the management, implementation and monitoring process for all the disciplines of EHS. We do this throughout the construction, commissioning and/or shut down phases of all types for Industries.

Message from the Board

Conventional to Innovational EHS Management with highest quality standards, has been our motto since the inception of ASK-EHS.

We have always seen old things in a new light, the idea being, how can you improve the system, what better can be done to achieve more at a faster rate with minimal chances of error.

From the onset, we have firmly believed that improvements cannot compromise quality. In our field (EHS), price for errors can be a human life, something that you cannot compensate with worldly things. This is the only reason that we are committed to maintaining highest quality standards in every service that we venture in.

Our goal is to create a platform where best in EHS business can join together and work on innovative methods helping our partners attain a healthier safer work place.

We are humbled to present ASK-EHS business profile and are confident that it will give you enough assurance to believe in change over for better by ASK-EHS confidence to believe in this change, known as ASK-EHS.

Message from the Team Member

Mahesh Thummar
HEAD Software Division

It is with a sense of deep satisfaction and pleasant pride that I recount my association with ASK-EHS for over 10 years, during which, it has seen its rise from a humble beginning to a place of prestige and rare distinction in India and abroad as well, in the diverse fields of Environment, Health and Safety.

I had the opportunity to organize I. T. sector for its various forms of applications with novel ideas and innovation to suit the requirements of the clients, including many reputed multi-nationals. Most of our services have earned inter-national acclaim in terms of quality and edge of application.

I wish its rise to new heights in years ahead with me holding the steering, at the same time deriving un-stinted support from our board of directors.

Qualifications: B. E. (Computer science)

L B Sinha
GM (Training & Audits)

As a bubble of clean water gives glimpse of ocean and a tiny seed of Pippal tree grows to giant size, so has been the phenomenal growth of ASK-EHS, with me as a proud companion and humble contributor over the span of about 10 years. Endowed with a noble vision to serve the society with exemplary EHS services along with allied disciplines like I.T., Animation, Scaffolding, Technical and Professional Courses, ASK-EHS has emerged as a professional Body with unbeatable competitive edge in pan-India region and also abroad.

Credit for such success goes to the brilliant team of young and imaginative directors and the entire team of talented professionals who have wielded the band of positive and expanding spiral of performance.

I wish it to cross several milestones of success, one after another.

Qualifications: B.TECH (1st class hons)-IIT (Electrical), Ex SAIL Executive, GRAD.-Mechanical (I.E. India), GRAD.-Electronic (UK), GRAD.-Industrial Engg. (India)
For EHS:- Lead Auditor: OHSAS-18001, **Lead Auditor:** ISO:14001, **NEBOSH:** IGC, ITC, Oil & Gas - With Distinction

what CLIENTS say...

ASK-EHS' services have been beneficial and helped to lift the standard of Safety within our organization, by making personnel aware at various establishments in different countries, about the near misses or accidents, using the medium of Animation.

 **Phil Kinney** (Corporate Safety Head)
GLOBAL RISK IMPROVEMENTS, GKN GROUP COMPANIES

CGPL Mundra is first UMPP of 4000 MW which has been commissioned in the shortest duration of one year and "permit to work system" was one of the challenge for safe work culture. This tailor-made soft based EPTW system which could be developed as per the organization safety guidelines has provided us ultimate solution. We had hesitation to go for this system as solid consistence maintenance support was a major reservation however we got an excellent and prompt support from M/S Ask EHS engineers throughout the journey. This system has exhibited all essential feature of company safety guidelines and hence this system can be established in other division of the company.

We are thankful to M/S ASK EHS for their excellent services throughout development and stabilization process of this system.

 **Umesh Likhite** (Group Head – Operations)
COASTAL GUJARAT POWER LIMITED (TATA POWER COMPANY)

Reliance Project Management Group (RPMG) deploy a blend of skilled, semi-skilled and novice hands and we needed to obtain additional qualified, experienced and competent EHS Engineers and Trainers to support our construction activities.

We contacted a number of agencies. After making them aware of our requirements and the skill-set needed, we provided an overview of activities and in-house facilities available on site. Subsequently, we engaged ASK-EHS Engineering & Consultants Pvt Ltd in Surat to provide manpower solutions because they were able to show that they had an understanding of our requirements and, they proposed personnel whose areas of expertise and qualifications matched our needs.

We set HSE objectives and targets that include improvements in the safety awareness of our workforce and confidence level s of our supervisory cadre. We thank ASK-EHS for assisting us in achieving our aims, they engaged personnel who blended in with our HSE team, and we appreciate the combined team and individual efforts and thank them as well.

 **Anthony Rawson** (HOD – HSE)
Reliance Industries Limited - Dahej

For the service part, we appreciate your work, also you have created a virtual world for learning and communicating safety in form of animation

 **Gagandeep Ojha** (In Charge)
BALCO FIRE SERVICES

One of the advantages of awarding the contract to ASK-EHS is that they have expertise in the field and they are easily able to understand our requirements with very minimal consultation. It would be easy for us to roll out the projects within the stipulated time. We have partnered with ASK-EHS for many animation projects, software project and continue to use their services to this day. The net result of our association has been very fruitful and productive. Keep it up ASK-EHS!

 **Suresh R. Penmatsa** (Vice President - Corporate EHS)
USV India Limited, India

On behalf of entire team (Battery # 10,11 & New BPP), I would like to congratulate you on successfully completing daily project work (2015 - 2016) and providing a wonderful presentation of the same. It's all because of the dedication and hard work of you and your team that our department could complete scheduled and challenging works in time with successfully & Safety for the year.'

I am aware that there are days you all have spent long working hour's and overtime just to finish the project.

I feel proud that I have such a wonderful team and you have leaded the team in the right direction.

We sincerely appreciate your role in the success and wish that you would keep up the good work in future too.

 **Swati P Minj** (Manager)
Coke Plant (Battery # 10-11) - Tata Steel Ltd., Jamshedpur

Vijay Tanks & Vessels (P) Ltd is engaged with ASK-EHS Engineering & Consultants Pvt Ltd, and I would like to take privilege to thank ASK-EHS to train our safety personnels. Their training agendas are well customized, which incorporates the specific needs and purposes of Vijay Tanks & Vessels (P) Ltd.

Vijay Tanks & Vessels (P) Ltd look forward to work with ASK-EHS on continues bases.

 **Praveen Kumar** (EHS Manager)
Vijay Tanks & Vessels Pvt. Ltd.

The work done by ASK-EHS to understand, plan and execute the final video is highly appreciable and executed fast. The outcome of this is that the video can even be understood by laymen. This will go a long way to make many people understand safety in simple way and prevent incidents and hence well-being of one and all

 **Chandar** (General Manager-HSSE)
APM TERMINALS INLAND SERVICES

An important re-engineering principle is that companies should focus on their core competence and outsource everything else.

Introduction

EHS professionals need a unique and diversified type of knowledge and training to meet the challenges of the complex and hazardous nature of industries. Enhancing the quality of industrial manpower, particularly in the field of EHS, is a pains-taking and skillful task needing expertise, infra-structure and resources. Quality, Professionalism and Competence are the practical needs of the hour in this vital field of EHS.

We, at ASK-EHS, stand for building quality, instilling professionalism and creating competence in our endeavor to develop EHS cadre with an elaborate and comprehensive training packages--aiming at moulding behavior of EHS personnel.

- Highly professional EHS team, developing training modules to meet industries' needs
- In-house Graphics and Instructional Designing Team to develop interactive and effective training programs
- Supported by in-house 3D Animation Studio
- Team of In-house Trainers and External Specialists
- National and International (multiple language) training modules and trainers availability
- Approved partner of Skill India Program PMKVY

Accredited & Approved

Glimpse of our Successful Achievements

Cairn India Ltd
Mines Vocational Training

All oil & gas companies are required to adhere to the OPITO standards for undergoing IMIS Training as per the Mines Vocational Act. We at ASK-EHS also initiated the same as a part of our training syllabus.

ASK-EHS has been rewarded with 3 years contract for providing IMIS Training.

The aim of the Mines Vocational Training is to make the employees aware of the key safety elements of the oil and gas industry.

- Customized IMIS Training module prepared based on the OPITO standards (UK)
- ASK-EHS has been providing Mines Vocational Training to Cairn India Ltd. at 3 of their locations (MPT, Bhagyam and RGT) with approx. 8 to 15 training days every month.
- Till date successfully delivered over 30 batches of Mines Vocation Training.

OPGC & AES (Jharsuguda, Odisha)
HSE Initial Basic Training

ASK-EHS was awarded a contract for providing Health, Safety and Environment Initial Basic Training for Odisha Power Generation Corporation at Jharsuguda, Odisha.

During the tenure of the contract, ASK-EHS has successfully delivered over 1000 training covering the detailed requirement for the Health, Safety and Environmental issues at Thermal Power Plant.

The training program was customized as per local and regional needs.

- Training modules and materials prepared in English, Hindi and Odiya languages
- Successfully trained over 18000 participants
- Overall improvement in safety culture achieved

Trainers & Practical Instructors

ASK-EHS has in its panel of trainers, technical and management professionals who obtained sound technical base from professional institutions, then worked in green and brown fields in various capacities, and later shifted into OSHE fields to shoulder HSE responsibilities. Our trainers are drawn from applied multi-disciplinary sectors of industries who can tailor-out practical inputs to the participants. Effective methods of delivery are adopted by experienced trainers in the form of group-exercises, experience sharing, problem-solving on actual work-situations and arriving at safe and satisfactory solutions of the industrial EHS problems/situations being faced.

EHS

Animation Movies

We, ASK-EHS have an in-house Animation studio. The combination of creative animation development expertise and the main stream of vast and practical work experience of EHS; bringing out an amazing, result oriented EHS videos. ASK-EHS' EHS Experts are involved right from the conceptual phase, including detailed study of requirement, client procedures / policies, analysis of purpose and key areas to be highlighted to achieve the target.

A qualified team of functional Analysts (combining expertise of EHS domain and creative script writers), Photographer, Modelers, Animators, Sketcher, Editors and Narrator take-up assignment & development.

To view animation samples Visit

<https://www.ask-ehs.com>

One of the tried and tested methods to share such information is by using 3 dimensional animation movies, recreating the accident scenario to an exact.

Using visual medium for education provokes better learning, as it evokes two most important organs of human anatomy simultaneously, i.e. eyes and ears.

Hence, the information is retained easily and for a longer duration.

Benefits of animation in EHS

- ✓ Presents true-to-life situations that learners face every day
- ✓ Imparts consistent information in every session.
- ✓ Can hold the audience attention by portraying emotional touches to generate emotional response

During the production we give multiple opportunities to the client for review and revision.

Milestones

- ✓ Developed SOP videos, demonstrating critical processes for various industries such as oil & gas, pharmaceutical, steel plants and many more.
- ✓ Successfully developed Employee Orientation Program of varied durations for Aditya Birla group of companies, Vedanta group of companies, Reliance group of companies, Adani group, Essar group of companies etc.
- ✓ Helped in reducing the re-occurrence of incidents by developing accident/incident scenario's for automobile industry, operational plants, construction industry, Oil & Gas industries
- ✓ Delivered various HSE training capsules in the form of E-Learning complete package with critical thinking based question for assessment and engaging interactivity. So far we have delivered E-Learning packages for Ultratech, Sun Edison, Vodafone and many more.

Employee/Visitor Orientation Training Program

According to the factories act, every employer holds responsibility of making his people aware of the site hazards and the preventive measures. Be a responsible employer, Induct your employees/visitor via engrossing medium of safety animation to get maximum retention.

HSE Training Capsules

Every activity has its own related hazards & precautionary measures. Activity based Safety animation video trainings covers all the important information.

Recreation: Accident/Incident/Near-miss

Explore one of the most prominent, tried and tested method of recreating any Accident/Incident/Near-miss via animation to educate your workers/ spread awareness/share information.

Equipment: Description/Process

For better understanding of the equipment and its operational procedure, it is important that each and every part of the equipment is observed minutely and the internal process is visually seen rather than just the diagrams.

Standard Operating Procedures

For an organization, uniformity in performance and quality output is very important, for this SOP is developed which is set of step by step instructions of the most safety way to perform an activity. How about an engaging method to deliver this information so that it lasts longer?

Testimonials

I am very impressed with the quality of people and quality of animation, especially the understanding of customer their needs, subject and expectations. I wish Ask EHS to grow more with such kind of excellent team who make customer happy by full filling the exact expectations. Good job done.....

Adinath Bade (Equipment : Description/Process)
USV Private Limited

We recently engaged ASK-EHS for addressing some of the challenges we face while training workmen globally. We found their understanding of EHS and safety procedures, to be exceptional. The team's ability to create safety animation videos independently was a key differentiator that we experienced in our several conversations with them. Their ability to understand the intricate processes and seamlessly translate them into animation was a key achievement.

We liked the young team's enthusiasm, ability to listen and ensure quick turnaround times on all aspects of the project. We have worked with the ASK-EHS team to develop safety animated e-learning movies on various subjects & found their work up to mark.

- ✔ Integrated HSE management through on-site deployment of personnel backed up by leadership from ASK-EHS' office
- ✔ Safety software, safety animation movies and other technical tools utilized for the entire duration of the project
- ✔ Comprehensive workmen management, improvement in safety culture and contingencies for emergencies

EHS

Audits & Compliance

Track correction, to be on the right path, and continual improvements in systems are the crux of success in any business. Assessments and audits by an independent third party show to the organisations where the gaps lie and how to overcome them, with further improvement measures. EHS is a specialist's and legal domain.

ASK-EHS provides an expert's EHS audit and assessment services to the clients to bring out the deviations and non-compliances with respect to the regulatory requirements, national/international standards of repute, world's best practices and suggest practical solutions in line with their internal policies and procedures.

- ✔ Workplace Audit as per IS 14489:1998 and requirements given by company/ industry.
- ✔ National & International standards /specifications such as-OHSAS 18001:2007, EMS14001, OSHA, OISD, EN...etc.
- ✔ A general EHS audit aiming improvement at project site or in industry.
- ✔ A specific audit in case any contractor/agency is unable to cope-up and match with the client's/owner's system.
- ✔ A special audit in case of any major mishap, disaster or catastrophe.
- ✔ Fire risk assessment as per Factories Act, 1948 and other relevant laws.

Milestones

Industries in India and overseas have immensely benefitted with ASK EHS' Audits and Assessments services in EHS domain which has helped them tide over, not only the statutory needs, but also solved their operational and project problems.

The important EHS services have laid milestones since past decade for several reputed multi nationals as appearing in the list of clientele.

A few of them are maintained

- ✔ Our detailed Feasibility Study/Audit Report helped Essar Steel Plant at Hazira for implementation of Lock-out, Tag- out & Try –out system.
- ✔ Conducted third party audit of General Motors plants in India at Pune and their centre at Bangalore along with their American Principals.
- ✔ Oil & Gas Extraction units of M/S Cairn India Ltd. at Barmer, Rajasthan was audited in detail by ASK-EHS which resulted in improvement of EHS Standards.

Development

Plans & Procedures

(Standard or Customized)

We work in close co-operation with the site-team especially to develop SOP (Standard Operating Procedure) along with the complete EHS Management System. Additionally we assist you with:

- ✔ Setting up your EHS policy & Safety operating procedures
- ✔ Determining site's specific Environmental, Health and Safety risks
- ✔ Risk ranking and assessment of impact to Occupational Health & Safety
- ✔ Pro-active and preventive preparation of Safety plans as well as safety procedures
- ✔ Post-occurrence arrangements: Design emergency procedure
- ✔ Emergency preparedness: Design emergency plans

We facilitate the implementation of the system with the following:

- ✔ Partner the site maintenance team to develop SOP for controlling the EHS risks (specifically construction SOP)
- ✔ Training your staff to implement these procedures
- ✔ Setting objectives to meet your contractual & ongoing improvement commitments.
- ✔ Assist the team to develop EHS procedures which will meet the set objectives
- ✔ Develop and implement an efficient plus cost-effective software system for documentation & control

Milestones

After pronouncing EHS policy of the organization, the next logical important step to implement the policy is to check out EHS Plans and procedures. ASK-EHS has made significant contributions to the needy industrial organizations including multinationals of repute, to study their plant / project areas and recommend suitable and best available modules as to how to go ahead, plan in detail, draft commensurate procedures , along with training the concerned people to implement them in phases so that they stay effective to tone- up the prevalent work-force , supervisory staff, their physical installations including the statutory and mandatory provisions being fulfilled.

Names of notable multinational appear in the list of clientele:

- Personal Protective Equipment,
- Portable/Mobile toilets
- Hoarding Sign Board

Magazine **B Proactive** ASK EHS

B-Proactive ASK-EHS

With the grit and determination of our three hard-core Safety Professionals (Board of Directors) who strongly felt that industrial safety as an occupation must be put on the same plane as other core businesses, ASK-EHS began its journey way back in 2007.

With time we realized that information-sharing system on EHS front as it exists suffers from certain intrinsic deficiency - both in terms of content and context, despite there being numerous publications already circulating in India and abroad. The obvious choice in front of us was to come up with the quarterly magazine (B-Proactive) beginning January 2016 to inform as well as to empower the readers.

We have made a conscious effort to avoid the contour of the crowded space and offer the readers with something new, different, practical and perennial resources. We, at ASK-EHS, are confident that our magazine will make the difference in educating the readers in a practical format with the implementable technical knowledge-base, away from the textbook inputs which the existing publications are loaded with, and enable the readers with ready-to-use professional data.

We earnestly hope that contents of the magazine will draw your attention and information provided will compel you to learn more.

Milestones

- ✓ Published our EHS publication series “B-Proactive ASK-EHS” for providing insight on very critical subject matter
- ✓ With our broad spectrum of EHS Resources, we have received 2000+ subscriptions and we are targeting 5000+ subscriptions in the coming year
- ✓ We have a strong following in industries like construction, manufacturing etc. and other services sectors
- ✓ B-Proactive ASK-EHS has a Global presence and is preferred by all EHS Professionals among all cadres including Top Management
- ✓ With our detailed EHS articles and all the safety humors added, we plan to achieve great results as we move ahead

Awards & Achievements

Our Safety Trainers team has received great appreciation from RIL, Jamnagar for the valuable contributions towards imparting HSE trainings to **1 Million** Project Employees.

Our employed Safety Team has been recognised for their excellent contribution as Best Safety Supervisors" by client at J3 Project, Jamnagar

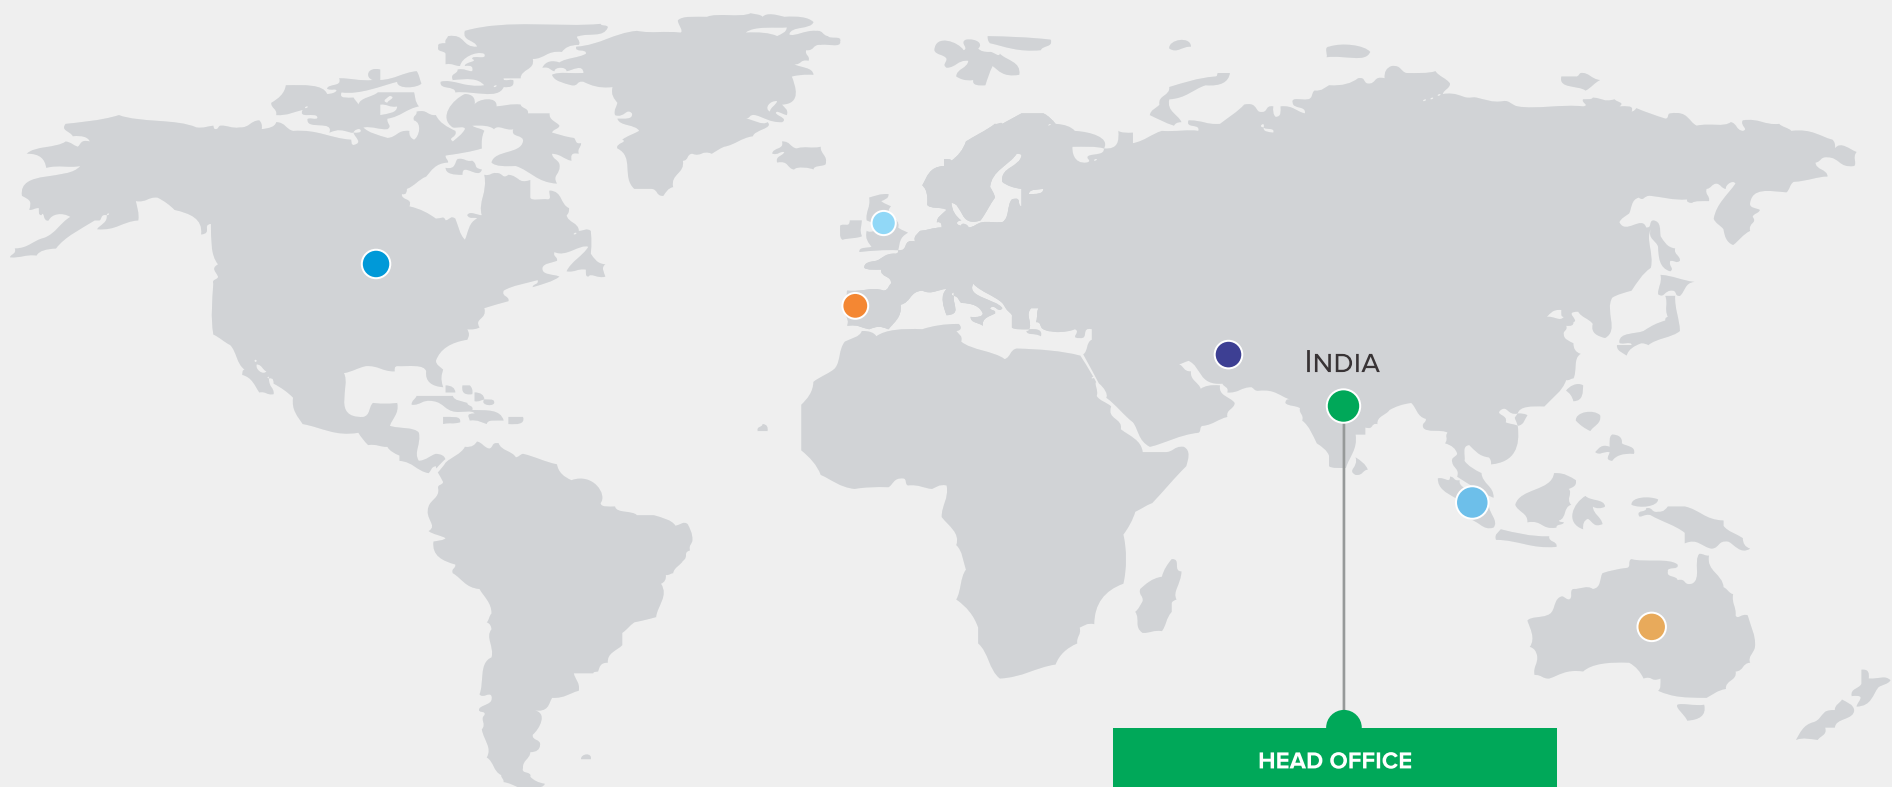

In response to Swachh Bharat Abhigyan launched by our beloved Prime Minister, leading Channel “ABP News” organised a short Film Competition, in which we won the 1st Prize.

We joined hands with Shri Narendra Modi for his Swachh Bharat mission & developed an animated short film, promoting the cause by participating in NFDC's short film competition. We received a token of appreciation acknowledging our effort - a matter of great pride & honour for us!
