

E-LEARNING

Progressive eLearning Programs for
a Multinational Conglomerate

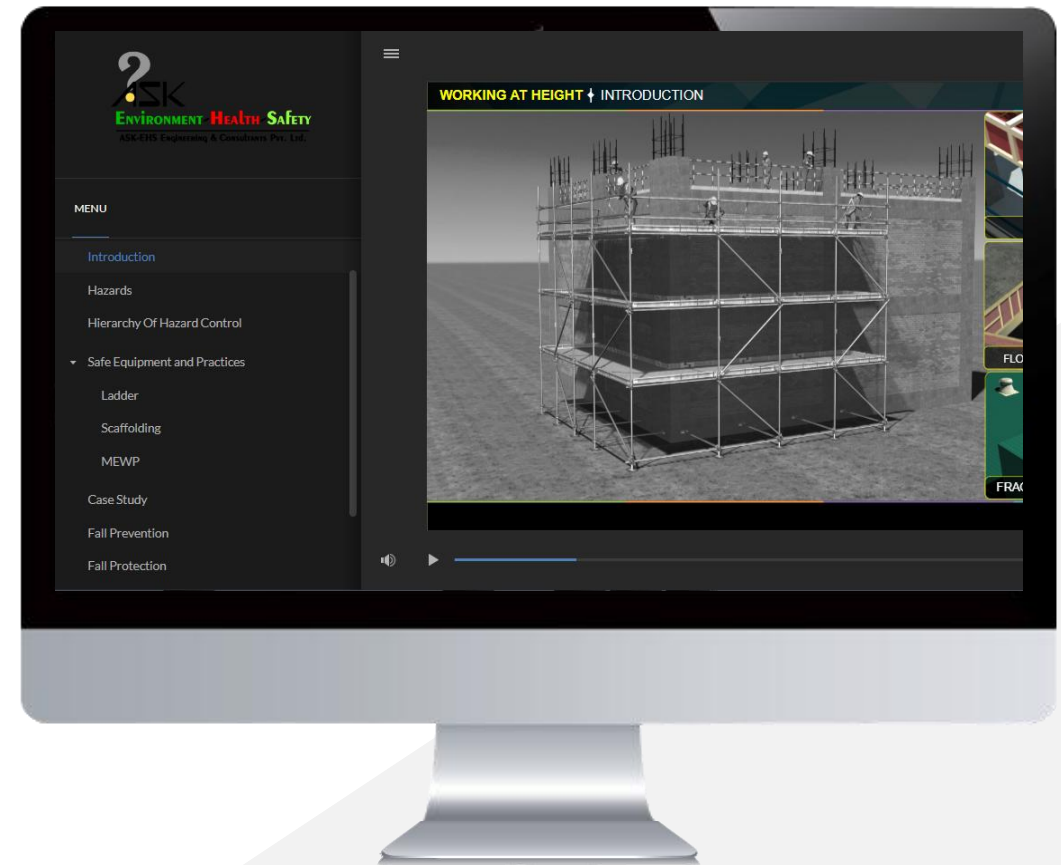

CUSTOMIZED E-LEARNING PROGRAMS

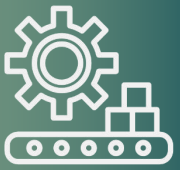

**3 universal eLearning modules
customized to suit the
organizational targets**

Stay Vigilant | Prepared | Aware

One of India's most Profitable organizations with diversified businesses across Energy, Petrochemical, Natural Gas, Retail, Telecommunication, Mass Media & Textiles, approached ASK-EHS with the intention of updating their current training method, by employing our domain knowledge & expertise

IMPLEMENTATION CHALLENGES

- Their training modules even though rich with information, lacked the quality of being captivating
- A lot of major & complex processes were showcased through either plain writing or through flow charts at best
- Immediate solution was to implement online learning at their prevalent unit

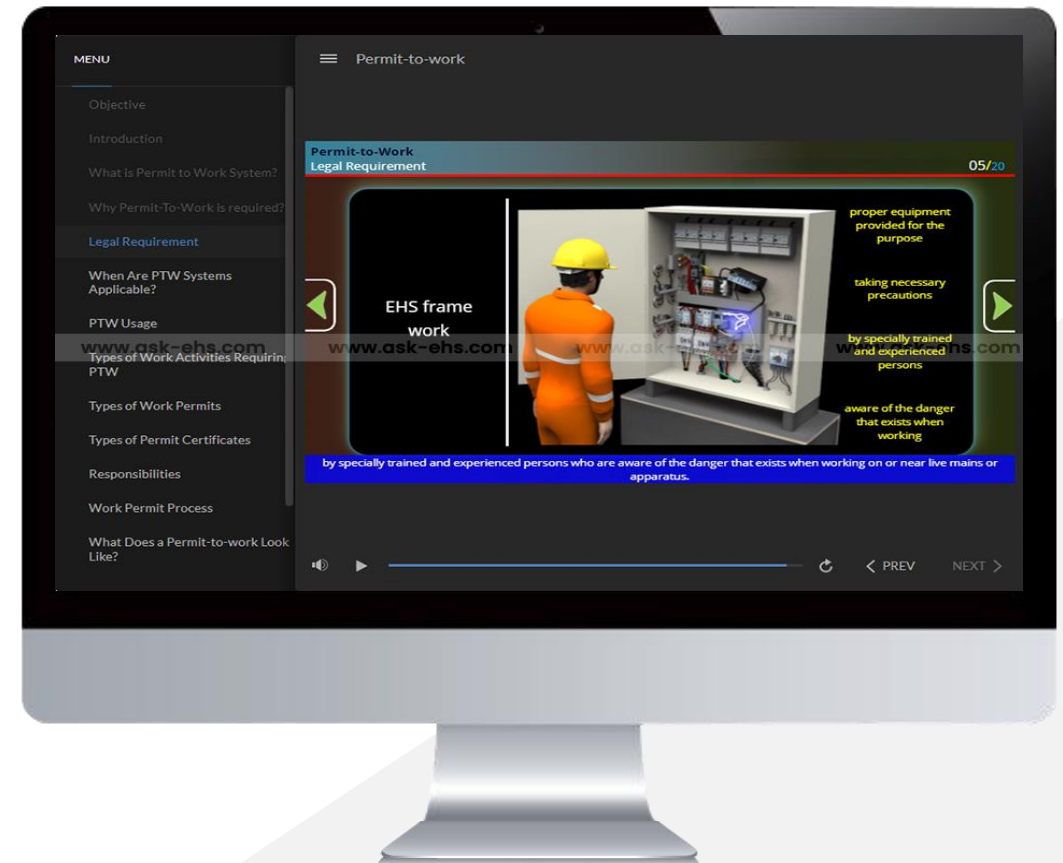

ATTAIN LEARNING EFFICIENCY

With the intention of training their in-house engineers & supervisors, they wanted to develop the modules on the following topics

- Control of work for PTW, HIRA & LOTO
- Basic Safety Rules
- Use of Spill Kits

ASK-EHS SOLUTION DELIVERY

- The message in the training programs was accurately put across
- The aesthetic of the module matched the branding guideline of the organization
- The duration of each module was just 10 to 15 minutes each

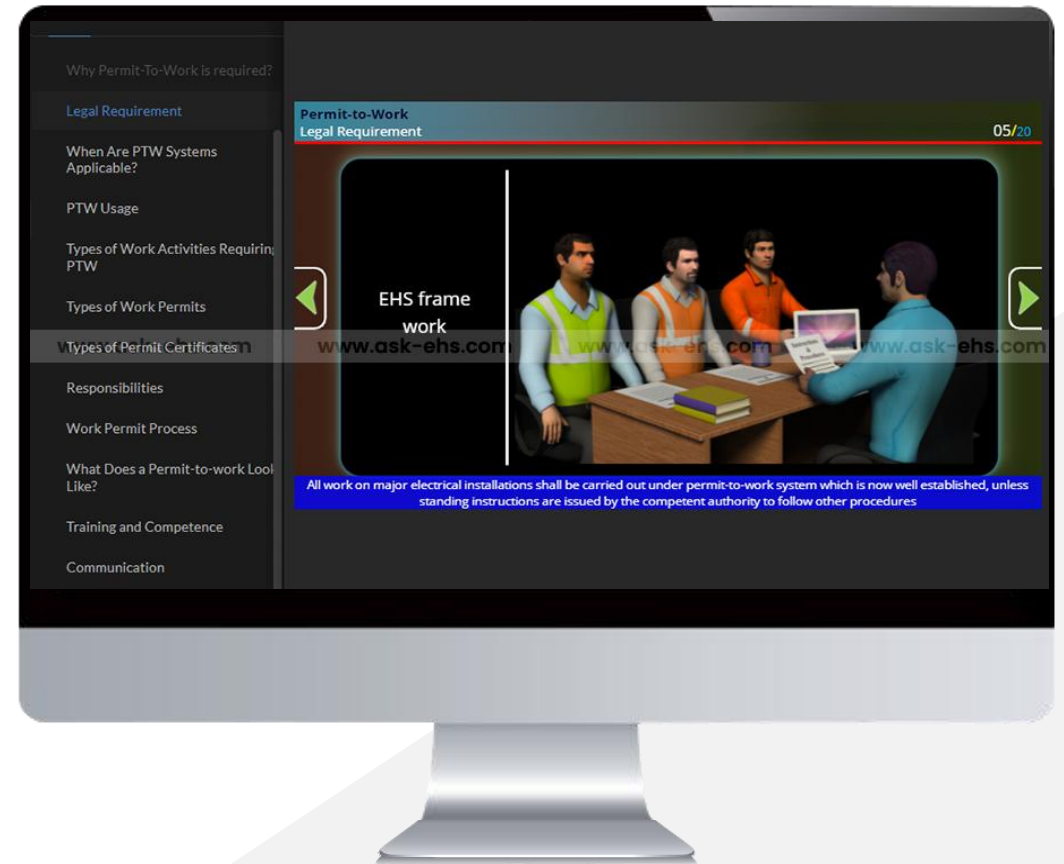

KEY FEATURES

- Client had utilized their services to address different HSE aspects through the use of Animated movies.
- It evoked strong responses, making their extensive use in the module would certainly help elicit the visual senses of the user & thereby enhance the retention value.

COMPREHENSIVE MICRO STATISTICS DELIVERY

- Ensured a more organized flow of the module by sectioning the content & grouping it as per consecutiveness
- Translated standards into graphical representations
- Identified the processes that could be explained through 3D animation
- Designed comprehensive periodical knowledge checks to ensure user attentiveness

COMPREHENSIVE MICRO STATISTICS DELIVERY

- Designed the module with our SMEs expertise whilst keeping the client's objective in mind
- All custom developed programs were delivered in SCORM compliant packages that could be seamlessly deployed on customer's LMS
- These eLearning programs were completely developed by ASK-EHS, the essence & intention that the client wanted these modules to have, were kept intact.

RESULTANT BENEFITS

- User attention increased by 80%
- The assessment result showed 70% increase in the retention rate
- Their existing training program gained refinement by ASK-EHS' domain knowledge

The module not only met but surpassed their expectations.

It aligned with the foresight of the projects, Business Communications & well as the corporate communications team.
